Anticipating Expectations Easing Transitions

Most of the resources outlined on this page are the result of conversations with high school teachers. We would like more representatives from the schools in the Annapolis Valley to join us, and welcome those from other Boards as well.

Our primary objective is to foster dialogue between high school and university teachers (and students) in order to prepare high school students for the transition to University English.

We try to meet with interested teachers one to three times per year, sometimes using Skype to reduce travel times. If you wish to be added to our regular mailing list, please contact us.
